Puzzle size 68x48 cm.
Poster included.

The Arctic North

The charming Lapland of the North is located where Finland, Sweden and Norway meet.

You are in a place where the world slows down and you can see the Northern Lights dancing in the sky. The fells rise amid silence and the air whispers ancient stories.

One of the most beautiful fells in Lapland is Saana, located on the shores of Lake Kilpisjärvi in Finland, in the thumb of the Finnish Arm.

In winter, shimmering white snow covers the forests and the ground, freezing the lakes and fjords. Reindeer wander through the snowy landscapes under the star-filled sky.

The winter in Lapland lasts about seven months. When the winter darkness breaks, the sun rises again above the horizon, the snow starts to melt, nature awakens and the Lapland's summer begins.

As you assemble the puzzle, each piece reveals more of the magic of the North and takes you towards the shine of the Northern Lights. You are not just assembling a picture, but a moment of silence, wonder and a story that lives regardless time and borders.
